

PopUp Display System

The popup display system combines strength, reliability and style. It features several unique advantages over other similar Popup display systems, especially its light weight and simplistic ease of use. This popup uses state of the art "Rare Earth Neo Magnets" on both its channel bars and locking/location systems. These make it very quick and simple to erect and take down, with practically no "easy to break" parts. Full display systems are offered in a wide choice of configurations from basic tabletop kits to full 20' long displays. All displays are offered as curved or straight systems, single or double sided and offer the option of combining with either breath taking seamless graphic mural panels or versatile velcro friendly fabric panels

There are a wide variety of different sizes and configurations available. Here are some of the most common configurations:

1x1 Tabletop kit

Footprint dimensions:30.625"h x 45.5"w x 12.5"d
